sports car were involved in accidents investigated by state police from the local sub-station Thursday evening.

The hit and run crash occurred in Brushtown, two miles west of McSherrystown on the Bonneauville Rd., at 7:30 o'clock.

Police said Leroy E. Reaver, 19. Hanover R. 4 laborer, was headed east when he saw a car coming toward him. Reaver, according to police, sought to drive his own vehicle off the berm of the highway to avoid the impending crash, but the left front fender and bumper of the "hit-run" car struck the left rear fender of Reaver's car, causing \$75 damage.

Seek Damaged Car

After glancing off the Reaver car, the other vehicle continued on its way. Police said the other car, believed to be a black 1950 Chevrolet sedan, would have extensive damage about the left front fender and bumper and would have some green paint on it from Reaver's car. They asked persons who may have seen such a car to call them at Gettysburg 221

The sports car was involved in a crash a mile north of Cross Keys on the Hanover-York Springs Rd. at 5:45 o'clock.

Marines Defeat Mountaineers BUBBLERS WILL In Title Game; Sullivan Is Selected Outstanding Player

Mt. St. Mary's failed in its bid to become the first champion of the Quantico Invitation Tournament other than the host Marines when they dropped a hard fought 84-69 decision to the tall, husky Leathernecks in the championship game of the third annual tournament Thursday evening. It was the second straight year the Mountaineers were runnersup.

Jack Sullivan, heralded Mount star, was selected as the outstanding performer in the tournament. He tabbed 35 points against the Marines to run his total point for the tournament to 116 for a new tourney record. The old mark of 93 was set last year by Chet Webb of Georgia Teachers. Sullivan's work against the Marines kept the Mountaineers in the running until midway in the

Rugged rebounding work on the part of the Leathernecks, particularly in the last half, proved to be the deciding factor. A dazzling fast break in the last minutes added to the Marines' surge.

Throughout the first half the Mount gave Quantico all it could handle and trailed by only a single point, 39-38, at intermission. During the first 20 minutes of action Sullivan tossed in 21 points His 10 points enabled the Mount to lead 12-10 after 5:41 of the first half

Sheing On Squad

In addition to Sullivan, coaches of the participating teams selected Bert Sheing of the Mount to the all-tournament 10-man squad. Sheing, a prolific scorer all season, was limited to four goals by the Marines.

Completing the squad are: Hank Getowski, Bernie Cieplicki and Bill Kuchar, of St Michael's: Al Taglieri and Roger Marcil, Belmont Abbey: Jim Carey and Frank Blum, Quantico: Leon Hawker, Hampden-Sydney, and Bot Jones, Moravian.

Lt. Gen. Merrill B. Twinings, commandant of the Marine Corps Schools, presented the awards. Sullivan received the outstanding player trophy and Coach Jim Phelan the team runner-up trophy.

In other games played Thursday Belmont Abbey topped Hampden-Sydney 75-72 for third place; St Michael's downed Wabash for fifth place, and Moravian laced Tampa 100-69 for seventh place.

PLATE IS SAFE

PORT HURON, Mich. (A) - A Saunders dental plate found in the sand along the Lake Huron shore was claimed by a man who had lost his store teeth five years ago.

Albert Allen proved his ownership to sheriff's officers by comparing the teeth with those he bought as replacements. They were identical.

202 135 157 1. How badly, if at all, does 173 179 153 Parker want to stay on as head coach?

2. How much are the Lions willing to pay to keep the man who has guided them to three division titles in six years in the National Football League?

3. What prompted Parker to announce that he would not ask the

board for a contract renewal? Parker's one-year contract expires Dec. 31. After six seasons as 161 181 171 head coach of the club, he said 142 148 161 he did not ask the directors to 149 135 162 renew his contract. He gave no

The injury to Detroit quarterback Bobby Layne after a bruising tackle by the Bears' Ed Meadows 180 149 159 inspired the accusations that Meadows deliberately tried to put Layne out of the game, Meadows 164 161 147 denied it. Whether Parker has made up

his mind to get out of the game, or whether he is dissatisfied with the club and its terms is not clear. It is believed that his present contract nets him about \$30,000 a year. Some say he wants a contract longer than one year. President Edwin J. Anderson

stated flatly that he offered Parker a contract, but that "we were not able to agree on terms."

CHRISTMAS IN OUR HEARTS "... And so in this way, my children, Christ was born in Bethlehem." But Christmas is more than the celebration of this event which happened long ago and far away. It is a present reality. Through the eyes of faith we see ourselves kneeling before the manger. We have come to adore our new-born King. Through the wonder of faith, the Christmas story becomes alive. The Christ Child is born in our hearts. The angels speak to us: "Behold I bring you tidings of great joy . . . For unto you is born this day in the City of David a Saviour, which is Christ the Lord! Our Bethlehem today is our Church and Sunday School. Let us go and take our children to worship our new-born King.

Sunday School Lesson

By H. R. and M. C. Gold

THE WORD BECAME FLESH John 1:1-18 Key Verse: And the Word be-

came flesh and dwelt among us, full of grace and truth. John 1:14. The story of the first Christmas is one of the favorite narratives in the Bible, particularly the account of Luke. There are differences in the accounts of the writers of the Synoptic Gospels (Matthew, Mark, Luke) and the Nativity events as presented in the prologue of John's Gospel.

The difference between Luke's and John's accounts is this: Luke tells primarily what happened that glorious night, describing in simple but magnificent poetry and prose the journey of Mary and Joseph to Bethlehem, their difficulty in securing lodging, the scene in the fields near Bethlehem, and the angelic choir announcing the birth of the Christ Child. This story gives the locale and lends itself admirably to retelling in carols, story and pageantry.

John approaches the great event of the birth of Jesus from an entirely different angle. He tells what it means, bringing the birth of Christ into relation with the creation of the world, interpreting what it means to us now and in the future. He places the first Christmas on a backdrop of Bible history, showing how the event was a part of God's great purpose and an expression of His love for man. For God's love is focused on a child in a manger in Bethle-

Account Of Nativity

Luke's account of the Nativity is lyric, while that of John is reflective. One appeals to the senses, and the other to the mind and thought of man. Consequently, a study of John may serve as a fine antidote to any sentimentality that may attach itself to the Chrismas observance. The universal love of God is basic to any study of the Christmas story

In John 1:1-3 the author uses "Word" as a synonym for Christ, "In the beginning was the Word, and the Word was with God, and the Word was God. He was in the beginning with God; all things were made through him, and without him was not anything made that was made." Christ was just as much the creation of God's mind and purpose as were the land, the sea, and His living creatures. Christ cannot be considered apart from God for He "became flesh and dwelt among us."

"The Living Word" God revealed himself Himself to us in Christ - the living Word. And this living person dwelled among men, teaching them how to live and becoming a "light" to all mankind. "The light shines in the darkness, and the darkness has not overcome it." In this verse John gives the theme of his Gospel which is the eternal conflict between light and darkness. While Jesus represents this light, spiritual blindness in the darkness. If people refuse to accept the Light then darkness will triumph in their lives.

But men of God such as the apostles witnessed to the light "that all might believe through him." Despite the fact that Christ, the Word, was revealed to all men "yet the world knew him not" and "his own people received him not." The latter may mean the people of Israel who rejected Him. The hopeful and encouraging fact is that many do receive Him and believe. so that darkness can never completely overcome the Light. Those who do respond will "become children of God." The coming of Christ into lives which have not known Him is re-creation - a rebirth of

And when the Word became flesh and lived among us God's plan of salvation began to operate and during Christ's final pain and suffering the "glory" of the future life in the presence of God began to dawn. Moses gave the law the "old" covenant - but "grace and truth came through Jesus Christ." At last mankind saw God in the "life" of the Child born in a stable at Bethlehem.

Nine times before he has stood in his dealer's showroom and accepted the keys to a new Cadillac car.

And yet, as often as he has re-enacted this glorious event, he knows that there is something very special about today.

For this is more than a new Cadillac. This is the newest and most advanced Cadillac car ever to find its way from

drawing board to production line. And imagine the many wonderful thrills that await him as he takes the keys and starts off on his first journey home.

To begin with, there will be his discovery of Cadillac's brilliant new performance. The car is so responsive and so perfectly balanced that it will be a revelation.

Then, as he takes the sweep of the boulevard, there will be the thrill of those admiring glances from his fellow motorists.

And how satisfying it will be to find that even Cadillac owners themselves have a special affection for the man who rides in the new "car of cars".

And finally, of course, there will be the joy of that wonderful "welcome home" as

he turns into the familiar driveway and comes to a silken stop.

Are you a hurricane driver? You are if you drive 75 miles an hour or more, the National Safety Council said today.

For at that pace, warned the Council, you can destroy yourself and anything in your path as quickly as a hurricane.

"The U. S. Weather Bureau considers winders of 75 miles and over of hurricane proportion," said Ned H. Dearborn, president of the Council, "and motorists should remember that a car driven at the same speed is propelled with the same destructive force."

. . .

Because of the emergency traffic situation, with its rising toll, Mr. Dearborn said a yearround "Back the Attack on Traffic Accidents" campaign, being launched this month will continue through 1957. The purpose of the campaign is to encourage public officials to step up the attack and to stimulate citizens to back the attack on traffic accidents.

During December campaign emphasis will be on speed, drinking drivers and pedestrians, night driving and pedestrian hazards.

Speed was a large factor last year in the 609 Christmas traffic deaths, the Council said. Driving too fast for conditions or in excess of the speed limit was a factor in 85 per cent of the fatal accidents, compared with an annual average of 35

At high speeds the human body becomes increasingly vulnerable, the Council said. If an accident occurs at 60 miles an hour or more the victim is eight times more likely to die than if he had been injured in an accident at 20 miles an hour.

"Speed not only increase your chances of having an accidentit decreases your chances of coming out alive if you do have one," said Mr. Dearborn.

To determine a safe speed, the Council said, drivers must take into consideration:

1. Weather and visibility. Fog, rain, snow, bright sunlight, or darkness are caution signs that should be heeded.

2. Mechanical factors. Engine power, ability to hold the road, nad effficiency of all mechanical parts have a definite bearing on selection of a safe speed.

3. Physical factors. Whether a road is rough, smooth, hilly, flat, curving or straight are considerations that should in-

4. Personal factors. The driver's physical and mental condition and the speed at which he can safely control his car are important factors.

5. Traffic conditions.. Drivers should adapt their speed to the traffic they meet. A safe speed on a country road can be unsafe on a city street.

A railway on which only one train made only one trip was built in Australia nearly seventy years ago. The five-mile, singletrack line known as "The Rosstown Junction Railway," ran from Oakleigh to a point near the Elsternwick station. Privately owned and and built as a connecting link between the Gippsland and Brighton lines, it never functioned as a railway. The first and only train, carrying a party of the owner's guests, was run on November 14, 1888, to establish the legal opening of the line. After the death of the owner, the railway was put up for auction. There was

. . . Travelers in Switzerland last summer found transportation greatly simplified by a new ticket. It is good on tramways, trolleys and buses in sixteen Swiss towns, including such major tourist stopovers as Berne, Geneva, Lausanne, Lugano, Lucerne and Zurich. The new tickets are supplied at railway counters only to those holding a general season ticket of the Swiss Transportation System.

You can take a transcontinental train ride for \$1.25 and, at the same time, get a close-up of one of the world's No. 1 tourist attractions. Board one of the small, gas-lit cars of the Panama railroad which skirts the Canal from ocean to ocean. From the train's windows you'll see nature's lush jungle growth crowding the railway's right of way. contrasting with man-made broad lakes and deep cuts through which ships slowly steam. Along the way, there are stops at stations within a stone's throw of the mighty locks where ships are lifted the height of a seven-story building. Four times a day, the train makes the forty-mile

NEW ARSONIST IS SOUGHT AFTER MORE BLAZES

TRENTON, N.J. (A) - Another hunt was under way today for a church firebug in this state cap-

Two more blazes broke out in churches yesterday less than three hours after a man was jailed on arson and murder charges in five earlier church fires.

Police reinforcements have been called in and plainclothesmen posted at as many churches as possible in an effort to trap the firebug at work or prevent another in the bizarre series of ment window.

Trolley car customs in Majorca are apt to astound American visitors. In Palma, capitol of this largest of Spain's Baleric Islands, it is not at all uncommon to see a man put his wife and children aboard a trolley, dash back into his yard, jump on his bicycle, pedal swiftly to catch up with the trolley, cling to its side and ride effortlessly into town, exchanging spirited chatter with his wife. Fare for the wife is three cents, for the children nothing and for the cyclist-Well he's riding on his own, isn't he?
